Microsoft Exchange from CBAI

CBAI Exchange Email is a business-class hosted email solution that provides secure, reliable, and professional email hosting powered by Microsoft Exchange. It offers enhanced security, calendar sharing, and seamless integration with Outlook and mobile devices. Banks who invest in Exchange Email benefit from 99.999% uptime, advanced spam filtering, and compliance-ready features, ensuring smooth communication and productivity. Plus, Exchange Email *with unlimited mailbox storage*, User and Mobile Device Management *with Remote Wipe*, Admin Control Panel, File Backup and Sharing, Email Encryption, Compliant Archiving, Teams, plus full Office Suite - *always up-to-date* and more.

CBAI Exchange Email includes enterprise-grade security to protect your bank communications:

- Advanced Threat Protection (ATP): Guards against phishing, malware, and ransomware.
- Spam & Virus Filtering: Built-in filtering to keep inboxes clean.
- Multi-Factor Authentication (MFA): Adds an extra layer of security for account access.

CBAI offers FREE, fully managed email migration for CBAI Members to ensure a seamless transition to CBAI Exchange Email. Our migration experts manage everything from moving email accounts, contacts, and calendars to configuring your new accounts with minimal disruption of your existing workspace and optimal functionality.

Our onboarding process includes:

- Dedicated migration specialists to guide you through every step.
- No downtime to keep your bank running smoothly.
- A hassle-free transition.

Easy to Integrate	Easy to Control	Easy to Set Up	Easy to Comply
Add productivity and security services to Exchange Email for extra protection.	Manage your users, services, mailboxes, and devices from our HostPilot control panel.	Give users enterprise-grade email from the familiar Microsoft Outlook interface they're used to.	Facilitates compliance with FINRA, SEC, SOX, HIPAA, FRCP, and other regulations.

Help Employees Be More Effective and Productive with Add-Ons to Exchange

Email is the centerpiece, but it doesn't stand alone. That's why we offer business email hosting solutions that bring added functionality to Microsoft Exchange Email to meet the unique needs of your bank. Choose the combination of services that's right for your organization.

MICROSOFT 365 APPS

Maximize employee productivity with the latest versions of Word, Excel®, PowerPoint®, Outlook®, and other Microsoft 365 Apps accessible from one platform on an easy and affordable monthly subscription.

EMAIL ARCHIVING

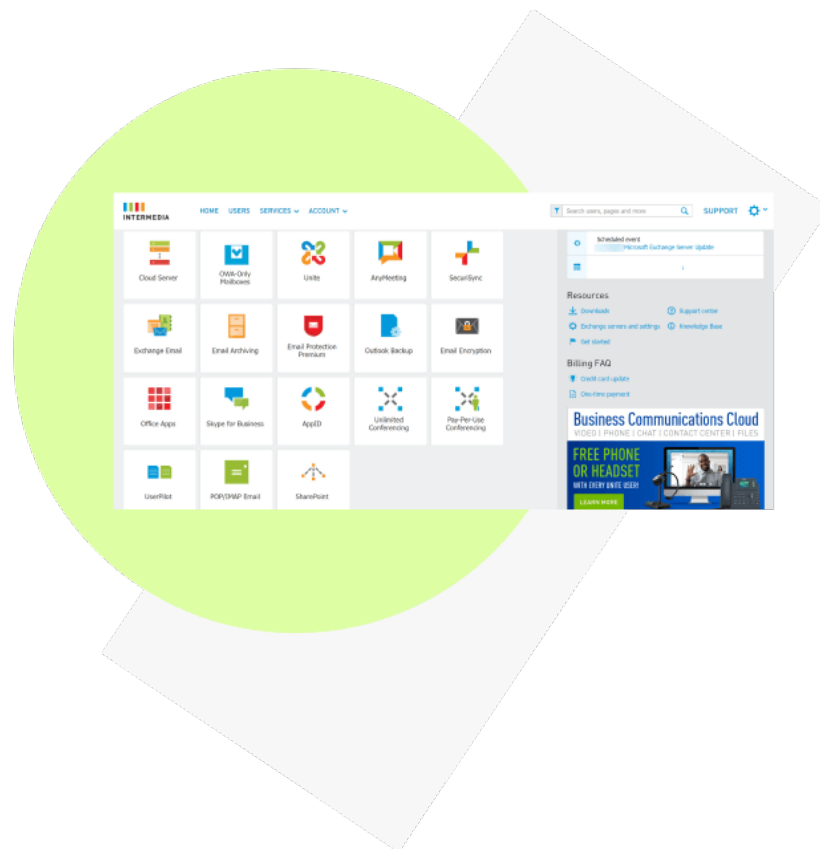

Capture and encrypt every email with full indexing and extraction of more than 400 file attachment types in a secure, audited database for easier eDiscovery and tamper-proof protection.

OUTLOOK BACKUP

Protect locally stored Outlook data with regularly scheduled backups of entire mailboxes or select folders. Each Exchange Email mailbox includes at least 500MB of Outlook Backup.

EMAIL ENCRYPTION

Facilitate compliance with HIPAA, SOX, GLBA, and other messaging regulations while monitoring email content and preventing data leaks. Pre-built rules make it easy to identify confidential information and track where it's distributed.

Secure Your Email with Our Comprehensive Email Protection

POWERFUL PROTECTION

Stop spam, phishing, and malware, including both known and emerging "zero-day" threats in the earliest stages of their proliferation.

AI GUARDIAN

Detect, analyze, and stop targeted threats that evade traditional detection with the added power of AI Guardian.

DATA LOSS PREVENTION

Detect sensitive data (PII, PCI, etc.) and block outbound email that violates pre-determined policies before it leaves your organization.

POINT-OF-CLICK PROTECTION

CBAI LinkSafe rewrites all URLs within inbound email and performs a real-time scan of the target site every time a link is clicked.

Enhance Your Workflow with Microsoft 365 Apps

Boost your bank with the most essential applications.

VERSATILE ACCESS

Stay productive anywhere with desktop Office apps. Access Office Online from any browser and keep working with Office Mobile on smartphones and tablets.

SIMPLIFIED LICENSING

Select a subscription plan that fits your bank needs and manage costs with the right number of licenses without overpaying.

CENTRALIZED ADMINISTRATION

Simplify IT management with a centralized control to manage users, billing, and payments from a single platform.

EXPERT SUPPORT

Our Microsoft Certified technicians are available 24/7 via phone and chat, providing professional assistance whenever you need it.
